

# ProQuest Central 综合学术期刊数据库

获取全球重要学术信息，助力研究与学习

王剑飞 科睿唯安客户培训师 | 2023年10月

## 讲座目标

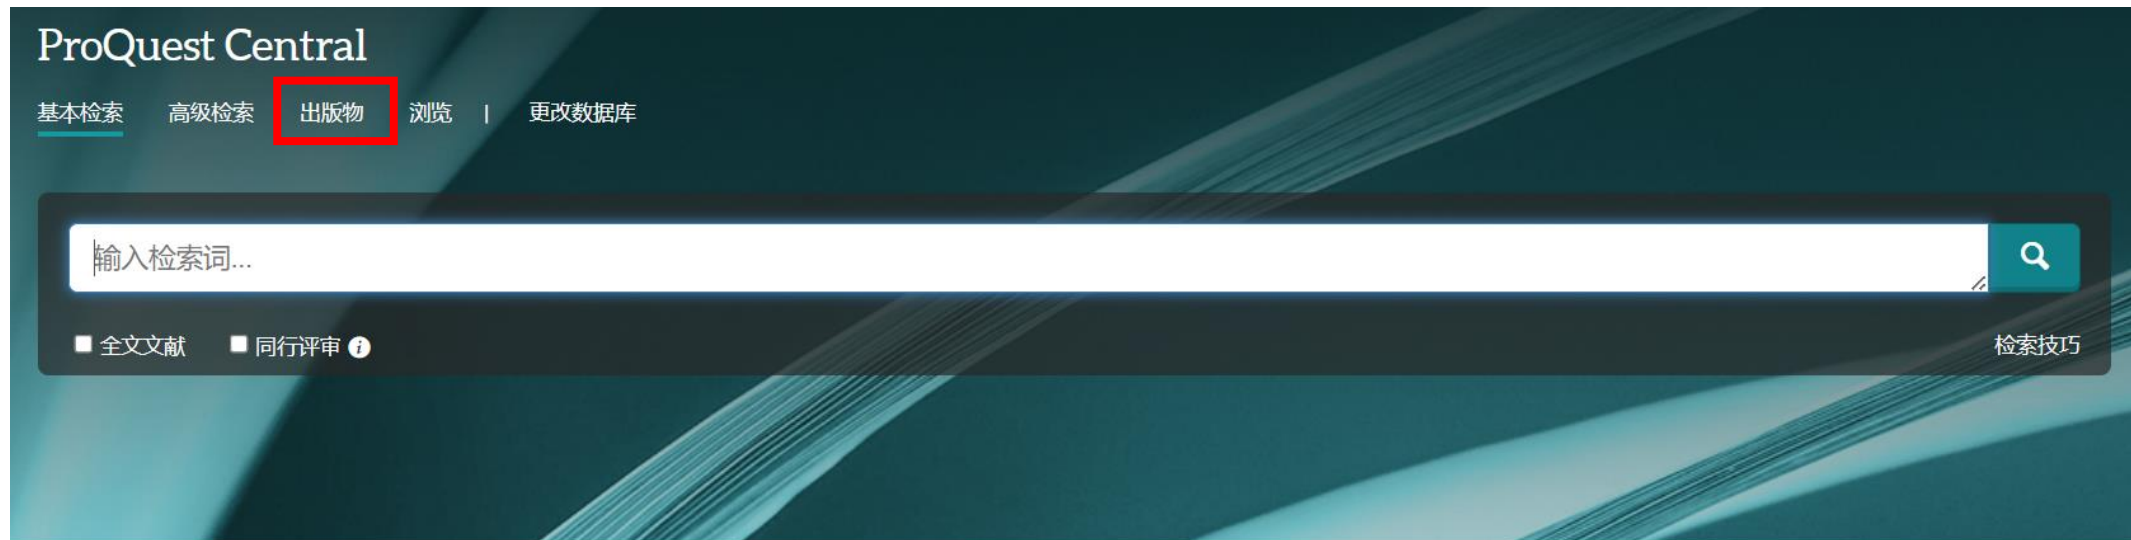

# 本讲座结束后将会学习到

- 了解ProQuest Central 数据库学术资源及其优势
- 选题思路与熟悉ProQuest Central 的利用技巧，案例研究

了解ProQuest Central 数据库学术资源

# ProQuest Central

ProQuest Central is the largest single periodical resource available, bringing together complete databases across all major subject areas, including Business, Health and Medical, Language and Literature, Social Sciences, Education, Science and Technology, as well as core titles in the Performing and Visual Arts, History, Religion, Philosophy, and includes thousands of full-text newspapers from around the world.

To see what's new in ProQuest Central click [here](#).

1st EAI International Conference on Computer Science and Engineering; Penang 提供全文

全文文献收录时间范围 2016 - 2016

引文/摘要收录时间范围 2016 - 2016

出版商 European Alliance for Innovation (EAI)

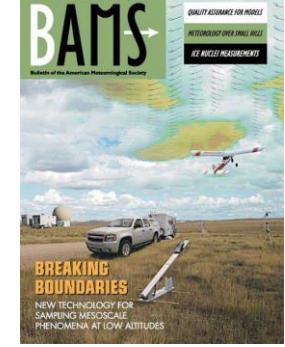

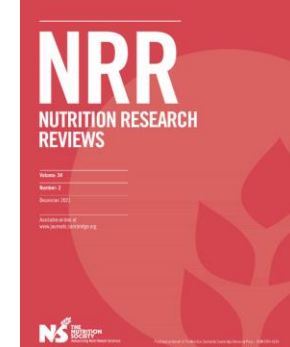

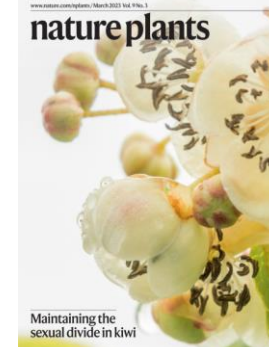

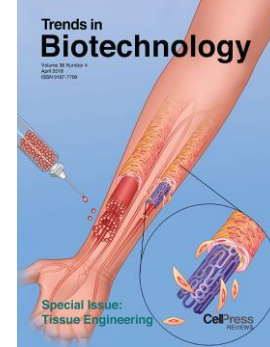

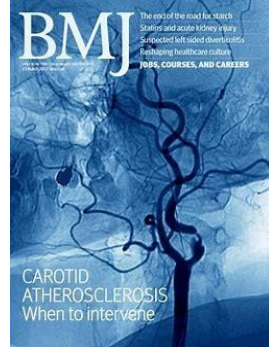

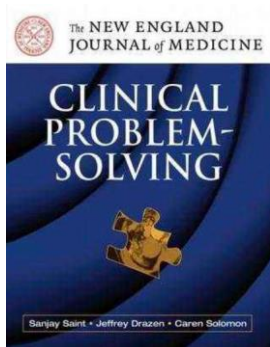

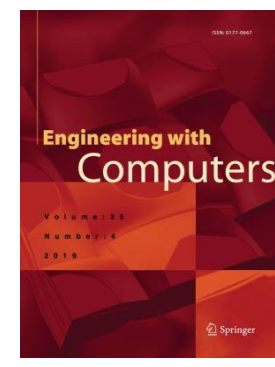

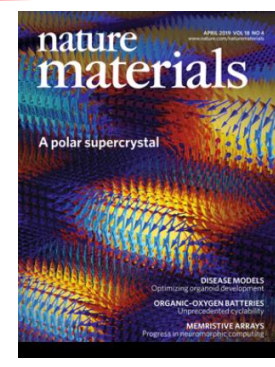

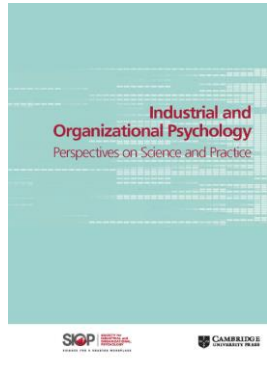

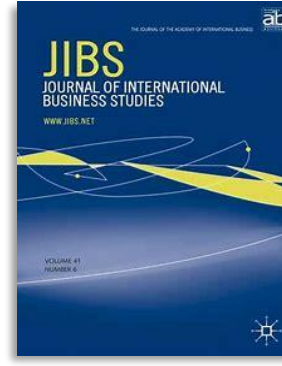

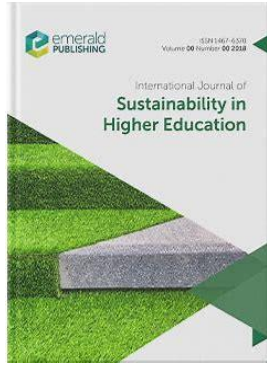

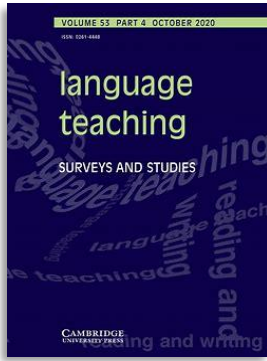

出版地 Penang

2

The 1st EAI International Conference on Multimedia Technology and Enhanced Learning; Inner Mongolia 提供全文

# 收录内容 - 举例

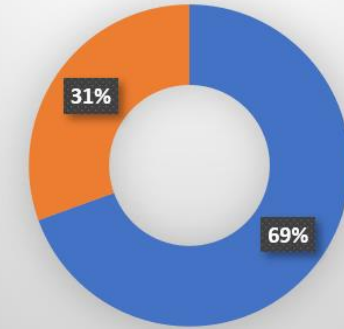

# ProQuest Central收录内容

提供2万多种全文刊

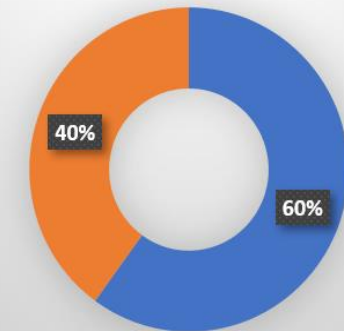

SCIE收录了自然科学、工程技术、生物医学等各个研究领域最具影响力的9,500多种核心学术期刊。PQ Central中2,900多种科技领域学科全文刊被SCIE索引

全文刊在SCIE中占比

SSCI 收录了社科领域最具影响力的3,500多种核心学术期刊  
PQ Central中约1,400种社科领域全文刊被SSCI索引

全文刊在SSCI中占比

# 收录内容

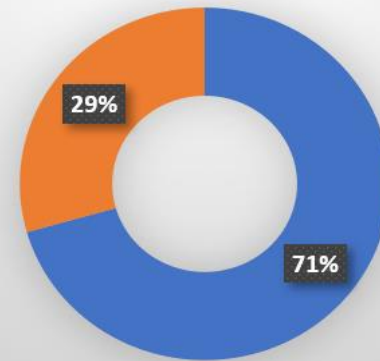

提供2万多种全文刊

A&HCI 收录了人文艺术研究领域最具影响力的1,700多种核心学术期刊。

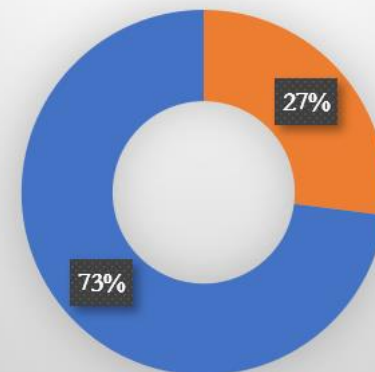

PQ Central中500多种人文艺术领域全文刊被A&HCI索引

ERIC收录教育学领域1,200多种学术期刊。  
PQ期刊中约300种教育学全文刊被ERIC索引

全文刊在AHCI中占比

PQ全文刊被ERIC收录百分比

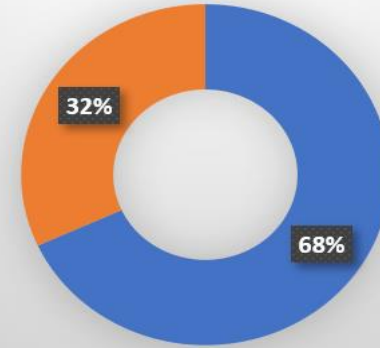

# 收录内容

提供2万多种全文刊

PsycINFO收录了心理学研究领域最具影响力的2,200多种核心学术期刊。

PQ期刊中700多种心理学全文刊被PsycINFO索引

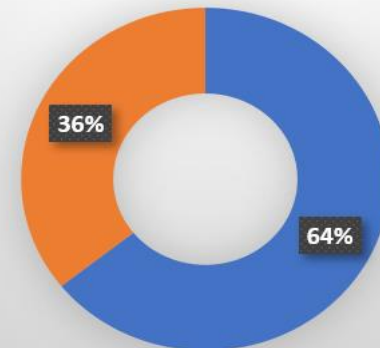

全文刊在PsycInfo中占比

PubMed收录生命医学相关领域全球5,600种学术期刊

PQ期刊中约2,000多种多种生物医学及相关学科全文刊被PubMed索引

全文刊在PubMed中占比

# PQDT Global - 35万多篇博硕论文全文

## 来源:60多个国家/地区

2020-22年新增

全文新增来源地含智利、爱尔兰、以色列、荷兰、南非、土耳其 (2020年), 意大利、博茨瓦纳 (2021年) 埃及、希腊、巴基斯坦 (2022年)

# REVIEW

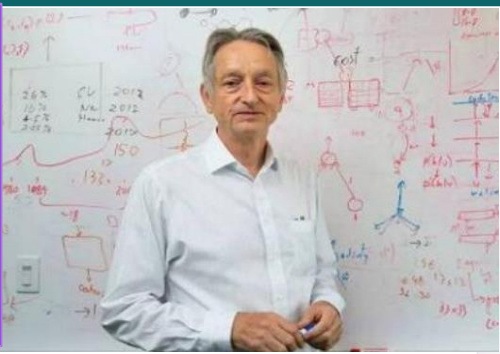

## Deep learning

Yann LeCun<sup>1,2</sup>, Yoshua Bengio<sup>3</sup> & Geoffrey Hinton<sup>4,5</sup>

Deep learning allows computational models that are composed of multiple processing layers that can learn representations from data with multiple levels of abstraction. These methods have dramatically improved visual object recognition, visual object recognition, object detection and many other domains such as natural language processing. Deep learning discovers intricate structure in large data sets by using the backpropagation algorithm to adjust the weights of the model. This enables a model to automatically find the representations that are useful for the task at hand. Deep convolutional neural networks have brought about breakthroughs in visual object recognition, whereas recurrent neural networks have shined light on sequential data such as text and speech.

Machine-learning technology powers many aspects of modern society: from web searches to content filtering on social networks to recommendations on e-commerce websites, and from spam filtering to fraud detection. Deep learning has enabled machines to learn to perform tasks that were previously thought to require human intelligence. This has led to breakthroughs in visual object recognition, natural language processing, and many other domains. Deep learning is a subset of machine learning, and is characterized by its ability to learn hierarchical representations of data. This is achieved through the use of multiple layers of processing units, each of which learn to extract features from the data. The most common type of deep learning architecture is the convolutional neural network, which is used for visual object recognition. Other types of deep learning architectures include recurrent neural networks, which are used for natural language processing, and generative adversarial networks, which are used for generating synthetic data.

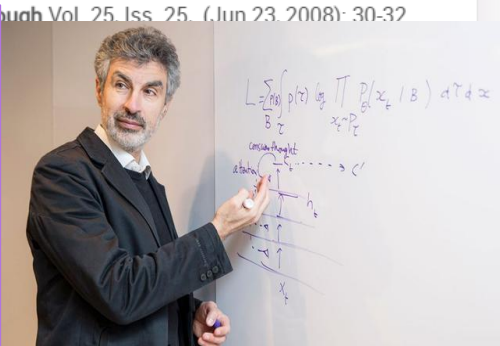

Geoffrey Hinton 杰弗里·辛顿，多伦多大学的特聘教授，被称为“神经网络之父”、“深度学习鼻祖”，荣获 2018 年图灵奖。

Yann LeCun 杨立昆，纽约大学教授，Meta 首席人工智能科学家，被誉为“卷积网络之父”，荣获 2018 年图灵奖。

Yoshua Bengio 约书亚·本吉奥，蒙特利尔大学教授。他在神经网络的应用方面做出了巨大贡献，荣获 2018 年图灵奖。

REPORTS

**Table 1.** Conditional probabilities  $P(I|S)$  to detect the idler photon in state  $I$  given detection of the signal photon in state  $S$ , at the point of maximum correlation for  $\Delta t = 100$  ns delay between read and write pulses; all the errors are based on counting statistics of coincidence events.

Basis	$P(H_i H_s)$	$P(V_i H_s)$	$P(V_i V_s)$	$P(H_i V_s)$
$0^\circ$	$0.92 \pm 0.02$	$0.08 \pm 0.02$	$0.88 \pm 0.03$	$0.12 \pm 0.03$
$45^\circ$	$0.75 \pm 0.02$	$0.25 \pm 0.02$	$0.81 \pm 0.02$	$0.19 \pm 0.02$

photonic qubits with the atom-photon quantum state transfer. By implementing the second node at a different location and performing a joint detection of the signal photons from the two nodes, the quantum repeater protocol (11), as well as distant teleportation of an atomic qubit, may be realized. Based on this work, we estimate the rate for these protocols to be  $R_2 \cong (\beta \xi \alpha \tau)^2 R \cong 3 \times 10^{-7} s^{-1}$ . However, improvements in  $\xi$  that are based on increasing the optical thickness of atomic samples (16), as well as

THE EVOLUTION OF INTERSTATE SECURITY CRISIS-MANAGEMENT THEORY AND PRACTICE IN CHINA

Alastair Iain Johnston

As the frequency and scope of China's paramilitary and military presence activities in the East and South China Seas have increased in the last few years, officials and analysts inside and outside China have worried more and more about the potential for military crises erupting between China and other

### Behavioral Economics: Past, Present, and Future<sup>†</sup>

By RICHARD H. THALER\*

In recent years there has been growing interest in the mixture of psychology and economics that has come to be known as "behavioral economics." As is true with many seemingly overnight success stories, this one has been brewing for quite a while. My first paper on the subject was published in 1980, hot on the heels of Kahneman and Tversky's (1979) blockbuster on prospect theory, and there were earlier forerunners, most notably Simon (1955, 1957) and Katona (1951, 1953).  
The rise of behavioral economics is sometimes characterized as a kind of

Spr 2017 | JOURNAL OF ECONOMIC PERSPECTIVES 31 (2), pp.211-235

Following the 2016 US presidential election, many have expressed concern about the effects of false stories ("fake news"), circulated largely through social media. We discuss the economics of fake news and present new data on its consumption prior to the election. Drawing on web browsing data, archives of fact-checking websites, and results from a new online survey, we find: 1) social media was ... 显示更多

Print this topic

Search syntax and field codes > Common Field Codes

» Looking for Search tips?

Every document in every ProQuest database is indexed to capture sections of information about the document, for example, its title, the author, and ISSN or IS. You'll see a document's indexing information when you view the document. This indexing makes it possible for ProQuest users to take advantage of search fields, Author, and the corresponding field codes, such as AU, to create very precise searches.

The Advanced Search and Command Line Search sections provide you with search fields in dropdown lists for you to use in your search to tap into specific bits of document information.

**Important to know:** The degree symbol (\*) indicates field codes that return results from only some databases, not all.

Frequently used search fields & field codes

Search fields as limiters

Advanced Search

Command Line Search

### Frequently used search fields

Search Field	Corresponding Field Code	Example
Abstract	ABSTRACT	ABSTRACT(food) - searches formal scholarly abstracts only
All abstract & summary text	SUMMARY	SUMMARY(food) - searches both formal scholarly abstracts and non-scholarly/informal summarizing texts
Accession number	AN	AN(1713554) - searches both the ProQuest document ID (applied to all documents) and the 3rd party document ID

## 运算符、字段和特殊字符

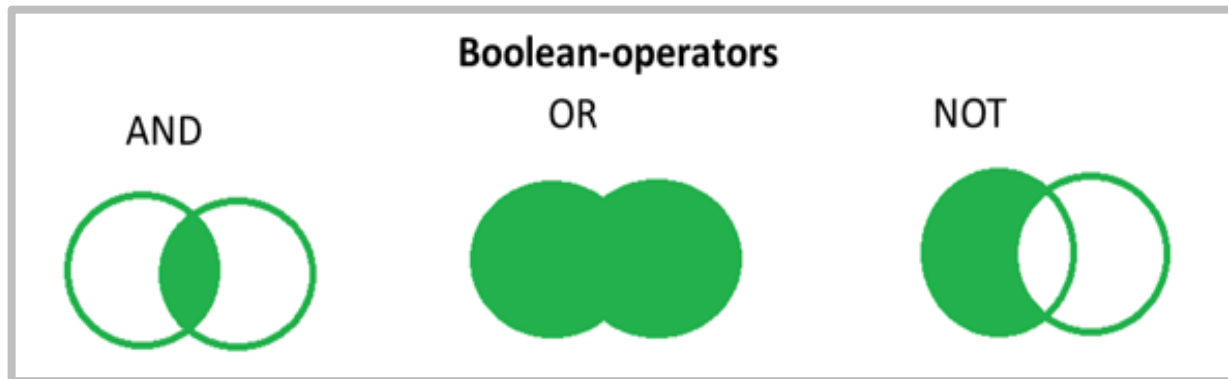

注: 您可以使用小写, 也可以使用大写来输入运算符 - OR 与 or 所起的作用相同。

运算符	说明	示例
AND	查找包含您的所有字词或短语的文档。使用 AND 可缩小您的检索范围并获取较少的结果。	food AND nutrition
OR	查找包含您的任何字词或短语的文档。使用 OR 可扩大您的检索范围并获取更多的结果。	food OR nutrition
NOT	查找包含其中一个检索词语而不包含其他检索词语的文档。	nursing NOT shortage
NEAR/n 或 N/n	查找包含间隔指定数量字词的检索词语 (任意顺序) 的文档。将 "n" 替换为数字。例如, 3 表示在 3 个字词中。单独使用时, NEAR 默认为 NEAR/4。重要信息: 当您 NEAR 缩写为 N 时, 必须提供一个编号。例如, internet N/3 media。如果检索 internet N media, ProQuest 会将 N 视为检索词, 而非近似运算符。	nursing NEAR/3 education media N/3 women
PRE/n 或 P/n 或 -	查找包含一个检索词语位于另一个检索词语之前的文档。	nursing PRE/4 education

Method

This review focuses on studies published between 1977, when Bandura first described the sources of self-efficacy, and 2015. We first identified research relevant to teaching self-efficacy using electronic databases such as Education Full Text, ERIC, and PsycInfo. All searches included the truncated terms “teach\*” and “efficac\*” to capture possible labels used for the construct (e.g., teaching self-efficacy, self-efficacious teachers, teacher efficacy). Terms used to refine the research so as to focus on the sources of self-efficacy included both general terms (i.e., source\*, antecedent\*, develop\*) and specific phrasing used to describe the hypothesized sources (e.g., mastery experience\*, enactive attainment\*, performance accomplishment\*). The initial search resulted in approximately 600 publications. We next applied the following inclusion criteria for identifying the relevant literature:

Teacher Self-efficacy Research in English as Foreign Language Contexts: A Systematic Review  
Hoang, Thinh. *Journal of Asia TEFL*; Seoul Vol. 15, Iss. 4, (Winter 2018): 976-990. DOI:10.18823/asiatefl.2018.15.4.6.976

2 引用人

The purpose of this review is to examine the state of existing research on TSE in EFL contexts and identify possible gaps for future research. This purpose helped to define the above questions and the review protocol, which was submitted for ethics approval from an Australian university in April 2017.

The key search terms used were “teacher self-efficacy”, or “efficacy”, or “TSE”, and “English as a foreign language”, or “English teaching”, or “EFL”. The reviewed studies were identified through popular electronic databases, namely, the Web of Science; Science Direct; Scopus; ERIC; Advance Google Scholar, and an Australian university library site. By June 2017, the literature search had identified 429 citations whose titles and abstracts then were screened against the following inclusion and exclusion criteria.

# 检索结果与限制条件

The image shows a ProQuest Central search interface. At the top, the search bar contains the query: `title((Teach* or Educator* or faculty) near/3 Efficac*) OR abstract((Teach* or Educator* or faculty) near/3 Efficac*) OR subject((Teach* or Educator* or faculty) near/3 Efficac*)`. The main results area shows 2,716 results. On the left, there are two filter panels. The top panel shows 6,045 results with filters for '排序条件' (Sorted by Relevance) and '限定条件' (Limiting Conditions), which includes '全文文献' (Full Text) and '同行评审' (Peer Reviewed). The bottom panel shows filters for '出版物类型' (Publication Type), '出版日期' (Publication Date), '出版物名称' (Publication Title), '文档类型' (Document Type), '主题' (Subject), '公司/组织' (Company/Organization), '地点' (Location), '人名' (Author Name), and '语言' (Language). A red arrow points to the '限定条件' section in the top filter panel. Another red arrow points to the '应用的筛选器' (Applied Filters) section in the bottom filter panel, which lists: 'Scholarly Journals OR Dissertations & Theses OR Conference Papers & Proceedings' and '2018 - 2023'. The main results list includes four articles, each with a title, author, journal name, and various action buttons like '摘要/索引' (Abstract/Index), '全文 - PDF 格式' (Full Text - PDF Format), and '参考文献' (References).

# 组合检索

## 条件1: **teacher efficacy**

title((Teach\* or Educator\* or faculty) near/3 Efficac\*) OR abstract((Teach\* or Educator\* or faculty) near/3 Efficac\*) OR subject((Teach\* or Educator\* or faculty) near/3 Efficac\*)

+ **对应逻辑算符 AND**

## 条件2: **Online instruction**

title((online or distance or remote or on-line) near/1 (teach\* or education or instruction or learning or course\*)) OR abstract((online or distance or remote or on-line) near/1 (teach\* or education or instruction or learning or course\*)) OR subject((online or distance or remote or on-line) near/1 (teach\* or education or instruction or learning or course\*))

The screenshot shows the ProQuest Central search interface. At the top, there is a dark green navigation bar with the ProQuest Central logo and several utility icons. Below the navigation bar, the search area is titled "高级检索" (Advanced Search) and includes tabs for "命令行" (Command Line), "近期检索" (Recent Searches), "词库" (Thesaurus), "字段代码" (Field Codes), and "检索技巧" (Search Tips). The search query is entered in a multi-row format:

- Row 1: (online or distance or remote or on-line) near/1 (teach\* or education or instruction or learning or course\*) 于 文档标题 – TITLE
- Row 2: OR (online or distance or remote or on-line) near/1 (teach\* or education or instruction or learning or course\*) 于 摘要 – ABSTRACT
- Row 3: OR (online or distance or remote or on-line) near/1 (teach\* or education or instruction or learning or course\*) 于 所有主题和索引 – SUBJECT

Below the search rows, there are controls for adding or deleting rows and a section for limiting conditions, including checkboxes for "全文文献" (Full Text) and "同行评审" (Peer Review).

### 摘要

翻译

自 英语 至 简体中文 翻译

### Purpose

The purpose of this paper is to examine the relationship between school climate and teacher stress. Specifically, the authors construct two parsimonious models to test two main hypotheses. First, whether preschool collegial leadership predicts teachers' job stress through the mediating role of teacher self-efficacy; second, whether teacher professionalism influences teachers' perceptions of occupational stress through the mediating role of teacher self-efficacy.

### Design/methodology/approach

The authors conceptualized the mediating role of teacher efficacy as an important mechanism that can help to explain the effect of school climate on teacher stress. School climate consisted of two dimensions: principal collegial leadership and professionalism. Therefore, the authors

## Factors Influencing Teacher Efficacy in Inclusive Education

Baş, Gökhan<sup>1</sup> Niğde Ömer Halisdemir University, Turkey

[ProQuest 文档链接](#)

### 摘要 (ENGLISH)

The present research attempted to examine the relative importance of student-related and school-related factors in accounting for teacher efficacy in inclusive education. The research adopted a predictive research design, and the sample of the research consisted of teachers ( $N = 292$ ) working in public middle schools in the province of Niğde in the Central Anatolia Region of Turkey. To determine the factors influencing teacher efficacy in inclusive education, Teacher Demographic Information Questionnaire and Teacher Efficacy for Inclusive Practices scale were used. In the research, multiple regression analysis was conducted to examine how well each set of independent variables — student-related factors and school-related factors — predicted teacher efficacy in inclusive education. According to the findings, student-related and school-related factors significantly influence teacher efficacy in inclusive education. Regarding the student-related factors, parental involvement, among other variables, was the most substantial predictor of teacher efficacy in inclusive education. Also, in terms of school-related factors, class size was the most substantial predictor of teacher efficacy in inclusive education.

### 已翻译摘要 (概要)

本研究试图研究学生相关因素和学校相关因素在考虑教师在包容性教育中的功效方面的相对重

要性。该研究采用了预测性研究设计，研究样本包括在土耳其安纳托利亚中部地区尼代省的公立中学工作的教师 ( $N = 292$ )。为了确定影响教师在包容性教育中的效率的因素，使用了教师人口统计信息问卷和教师对包容性实践的功效率量表。在这项研究中，进行了多元回归分析，以检查每组自变量（学生相关因素和学校相关因素）对包容性教育中教师效率的预测程度。根据研究结果，学生相关因素和学校相关因素会显著影响教师在包容性教育中的效率。关于学生相关因素，除其他变量外，家长的参与是衡量教师在包容性教育中的效率的最重要预测指标。此外，就学校相关因素而言，班级规模是衡量包容性教育中教师效率的最重要预测指标。

be regarded as one of the most important school reforms (Savolainen et al., 2020). Over the past two decades, inclusion for students with special learning needs has gained international support (Armstrong et al., 2010), and programs that educate students with such needs in a classroom separate from the majority of students are diminishing globally (Loreman et al., 2013). Instead, there is increasing emphasis on the inclusion of students with special learning

## 讲座小结

通过本讲座，我们学习了

- 了解ProQuest Central 数据库学术资源及其优势
- 选题思路与熟悉ProQuest Central 的利用技巧，案例研究
